Letter Blocks

6"x6" finished

Make 2 6.5" x 6.5" Units

Paper Piecing pattern posted for K, B, L & M.

EQ produces pretty foundation piecing patterns, but they do not have detailed instructions, so if you are a beginner, it might be frustrating.

While some letters are easy to paper piece and others are a real challenge.

If you would like a letter from this series, please send me a message on Facebook or an email to kbm1@ptd.net, and I'll be happy to make a .pdf file for you of any letter(s) you would like.

Again...this is a great place to get creative. Try a block you've always wanted to try, dig out an orphan block from your stash

All of the patterns (with the exception of the diamond strips) are produced using Electronic Quilt, Version 7. This software does a great job of creating cutting instructions for quilt blocks, however it does not include detailed piecing instructions. If you find yourself getting frustrated, please reach out to me, and I will work to provide more written instructions.

Please share your progress, lessons learned and suggestions with the facebook group, and/or by email and comments during fibercast.

Thanks for joining us on this ride...the first Simply Colorful Sampler Quilt-along! I am certain I'll learn alot as we go along, I'm exited for the collaboration. You can reach me by email or on Facebook any time!
